## THE NEWS RECORD.

A SUMMARY OF THE EVENTFUL HAPPENINGS OF A WEEK.

The Latest News as Flashed Over the Wires from All Parts of the World—Regarding Politics, Religion, Casualties, Commerce, and Industry.

### HAVE BOUGHT THE MILLS.

An International Syndicate Secures the Washburn and Pillsbury Properties.

A London cable says: The sale of the great mills of the Washburns and the Pillsburys has been concluded, as well as that of their milling, elevator and water power properties, concerning which negotiations have been under way for many weeks. The sale is made to a company recently organized and to be known as the Pillsbury-Washburn Flour Mill Company. It is composed of American and English stockholders. Ex-Governor Pillsbury, Senator W. D. Washburn and C. A. Pillsbury and four English associates will form the board of directors. Senator Washburn says that the new company would make extensive additions and improvements in the property, as the infusion of English blood would greatly increase the foreign sale of the mill's products, one-third of which is now exported. The property disposed of consists of mills at A. B. and Anchor of C. A. Pillsbury & Co.; Lincoln and Pillsbury mills of the Washburn Mill Company; 130 elevators of the Minnesota & Northern Elevator Company, the water-power of the Minnesota Mill Co. and St. Anthony's Falls Water Power Company, and a controlling interest in the Atlantic Elevator Company, which has forty elevators. The capital stock of the new company is \$5,000,000, and the debenture bonds \$3,750,000. The amount paid for the property, according to Senator Washburn, is \$6,250,000. The sellers of the property retain a large interest therein. The mills of the C. C. Washburn estate are not included in the deal.

### A SERIOUS WRECK.

Fatal Collision Between Freight and Passenger Trains in Virginia.

A passenger train going east over the Norfolk and Western Railroad collided with a west-bound freight train a mile below Buford Station, Va. Three men were killed outright and several were injured. The killed were: Les Jones, fireman on the freight; Sonny McDan, a colored tramp from Lynchburg; Joe Gwin, a colored brakeman. The accident resulted from a misapprehension of orders. When the freight passed Thaxton it had until 1:20 a. m. to reach Buford siding, but the conductor read the order 1:40 a. m., and thinking he had ample time, ran ahead. An old colored man signaled the passenger train, and warned it of the approaching freight train. Speed was reduced, but the collision could not be avoided. Four freight cars, a postal car, and both engines were badly wrecked.

### THE BENDER CRIMES RECALLED.

Belief that Mrs. Bender Has Been Living in Michigan.

Kansas officers have taken to that State from Niles, Mich., a woman calling herself Mrs. Munro, whose daughter was acquitted the other day of a charge of grand larceny. It is alleged that the aged dame is the infamous Mrs. Bender, whose family many years ago committed many murders in Labette County, Kansas. Mrs. Davis, the daughter, insists that the Munro woman is, in fact, Mrs. Bender; and many persons believe that Mrs. Davis is herself the notorious Kate Bender.

### THE ALTON RAILROAD.

A Report that It Has Been Sold to the Vanderbilt Group.

President Blackstone, of the Chicago and Alton, says there is not a scintilla of truth in the reported sale of that road to the Vanderbilt interests. There have been no negotiations to that end. Efforts were recently made by the Big Four syndicate to close a traffic agreement with the Alton, but none of the plans proposed were acceptable to President Blackstone, and the matter has been dropped for the present. There has been no offer to buy the road.

### Timber for Destitute Settlers.

Secretary Proctor has granted permission for the destitute settlers of North Dakota to secure wood from the reservation near Fort Totten upon such conditions as may be agreed upon by the Post Commander and a board of Commissioners to be appointed from each of the counties in which the suffering exists, the permission to extend to the cutting of fallen timber, dead standing timber, and such trees as may be cut with benefit to the growth of remaining timber.

### Gathered in Ten Crooks.

A tailor's store at Pierre, S. D., was gutted by robbers the other night, and an attempt was made to ship the stolen property by express next morning. The agent notified the police, with the result that ten of the crooks were arrested, and all other suspicious characters will be imprisoned or compelled to leave the city.

### Col. Switzer Dangerously Ill.

Col. William F. Switzer, ex-Chief of the National Bureau of Statistics, is said to be dangerously ill in his home at Columbia, Mo. Over-exposure has greatly impaired his mental faculties.

### Electric Lights for China.

Peking, China, is to be lit by electricity. The Westinghouse Company, of Pittsburgh, has secured a contract for a large electric light plant for Peking, and the machinery has been shipped.

### Monument to Chinese Railway.

At Wilmington, Del., there has been unveiled the monument over the grave of Cassius M. Yost, a signer of the Declaration of Independence and member of the Continental Congress. Ex-Secretary Yost delivered a commemorative address.

### The Minneapolis Flood Damage.

The Minneapolis flood work of Monday night, caused \$1,000,000 in damage, and has within ten minutes, against nature, been reduced to a small stream. The work is not yet done, but has been done by the city of Minneapolis.

## CURRENT HAPPENINGS.

### THE OLD WORLD.

—The London Times says that, while England could not consent for any European power to take the Sandwich Islands, that country would agree for the United States to do so.

—The German Tory organ, the *Neue Zeitung*, inveighs bitterly against France, declaring that country to be Hebrew ridden, and condemning the Jews in equally strong terms.

—The Berlin police have notified Count Dillon to quit Dienne, otherwise they will arrest him and expel him from Germany.

—Two companies of infantry and a detachment of 120 police have been ordered to Limerick, Ireland, to assist in extensive evictions about to be undertaken there.

—A Shanghai cable says: No effort is being spared, with the active co-operation of Li Hung Chang, the Viceroy, to bring about the satisfaction of the Chee Tso Telegraph Convention. Regarding the expulsion of foreign residents in China, the American Minister is earnestly protesting against such a step, while Sir John Walsham is abstaining from interference.

The rainfall has destroyed the rich cotton crop in the Yang Tze Valley. A widespread famine is imminent, and the price of rice is already trebled.

—Affairs in Guatemala are in a bad state. A revolution on a large scale, said to be backed by New York parties, is imminent. The revolutionists make a pretense of counting on Mexican aid, but Government officials there say that Mexico will not back any revolutions. Letters to *El Nacional* (newspaper) state that a war between Guatemala and San Salvador is imminent.

—The British ship *Bolan*, from Calcutta for Liverpool, has foundered at sea. Thirty-three lives were lost. In a railway accident at Hattas, near Agra, India, fifteen persons were killed and forty injured.

The general transatlantic steamer *Ville de Bres* burst her boiler in Tunis Bay. Five persons were killed by the explosion.

—London cable: Sir J. B. L. L. states that forecasts of the British wheat crop must be considerably discounted. The area for 18-9 is 2,740,720 acres, or over 183,000 acres less than in 1888. He puts the crop at a little over 8,000,000 quarters, and the amount required for consumption at 27,000,000 quarters. According to this the requirements will be higher than last year.

—The death is announced from Paris of Charles Louis Marie Lambert de Sainte-Croix, the French statesman. He was 61 years of age.

### PERSONAL NOTES.

—Miss Annie E. Johns, of Leakeville, N. C., is dead. She was a literary character of local reputation, the author of "Coolidge" and other works. During the war she spent much time in the hospitals and was known as "the Angel of Mercy."

—A San Francisco dispatch says: Mrs. Charles Crocker, widow of the Southern Pacific Railroad millionaire, died suddenly of apoplexy at her residence on California street. A few weeks ago she returned from a prolonged visit to Europe, where she went after her husband's death. She came back to be present at the distribution of his large estate, of which she received about one-third, amounting to something over ten million dollars. Although she had been a semi-invalid for some time, no one expected her death. She was very hospitable and given to works of charity, having, with Mrs. Stanford, established a large number of kindergartens in San Francisco. Her most recent charitable work was the building given to the Old Ladies' Home. Her maiden name was Mary A. Deming, and she came from Albany, N. Y. Mrs. Crocker's great fortune will go to her daughter, Mrs. C. E. Alexander, of New York, and to her three sons, Colonel Fred, William H. and George Crocker, all of whom live in San Francisco.

### POLITICAL POINTS.

—Congressman John Lind has secured the appointment of William G. Gresham, brother of Judge W. G. Gresham, as Postmaster at St. Peter, Minn. It is an old, resident and has held several other important positions.

—A special from Postress Monroe, where Private Secretary Halford is staying for his health, says that, owing to continued illness, Mr. Halford has resigned, and that D. G. Alexander, of Buffalo, N. Y., has been tendered the position. Mr. Halford has suffered from a distressing complaint since early in the summer, and most of the time since May has performed the duties of his position not at all, or only with great difficulty and personal discomfort.

While at Deer Park with the President he improved considerably, and on his return to Washington attempted to resume his labors, but found the strain too great, and went to Postress Monroe in hopes of regaining his former health. The dispatch indicates that he has become discouraged over his long illness and resigned.

—The President has appointed John C. Slocum, of Florida, to be Surveyor General of Florida.

### FINANCIAL AND INDUSTRIAL.

—Lindeman Bros., dealers in pianos and organs in Cincinnati, have assigned to J. C. Clev. Liabilities, \$2,000; assets, \$15,000. The failure was caused by pressure of New York creditors.

—P. M. Arthur has been re-elected for the fourth time Grand Chief of the Brotherhood of Locomotive Engineers. It required but one ballot in the Denver convention to elect Arthur, and the vote stood as follows: Arthur, 511; George Vreeman, 101; and S. Voder, of California, 1. On the result being announced the convention went almost wild, and for over an hour hundreds of men clamored around their grand old chief and shed tears of joy at his reelection. Joseph H. Sprague, of Canada, the present incumbent, was re-elected Third Grand Engineer. Cleveland, Ohio, has been retained as the national headquarters.

It is rumored that the St. Louis, Kansas City and Colorado, one of the Santa Fe lines running out of St. Louis, is to be sold for \$2,500,000 to a syndicate which will at once complete and extend it to Kansas City. The syndicate is composed of John L. Brier and other Eastern capitalists. Negotiations are progressing and the syndicate is expected to complete the purchase in a few days.

—The Atlantic Bank, of Albany, N. Y., has suspended payments. The deposits amount

to \$200,000, principally local. Discounts and individual loans swell the liabilities to \$400,000. The firm claims to own \$200,000 worth of real estate and notes, and say they will pay in full if given time to realize.

—R. G. Dun & Co.'s weekly review of trade says:

The money market has become more easy, with prospect that serious disturbance this season is no longer to be apprehended. The loans are running with narrow margins, and artificial stringency may at any time be engineered, but the movement of crops has been heavy. Merchandise exports for three weeks show a gain of 10 per cent. over last year, against a gain of 10 per cent. in imports. There is a little more stringency at Omaha, less at Cleveland, and an active demand with conservative tone at Chicago, but otherwise the markets West and South all report supplies adequate for legitimate needs. Collections are usually satisfactory. At almost all prices, though Milwaukee notes some tardiness, because farmers hold back products for better prices. The volume of trade is greater than a year ago. Chicago finds a larger increase, particularly in dry goods, while sales of cloth and shoes are fair, but not so large as last year. The volume of grain about as large. The wool trade has been the largest at New York for a long time, and more active at Boston, where sales have been 100,000 pounds, but still at Philadelphia. Irons grow stronger. Liquidation is not so active, with prices 3 cents lower than a week ago. The volume of trade is greater than a year ago. The volume of grain about as large. The wool trade has been the largest at New York for a long time, and more active at Boston, where sales have been 100,000 pounds, but still at Philadelphia. Irons grow stronger. Liquidation is not so active, with prices 3 cents lower than a week ago. The volume of trade is greater than a year ago. The volume of grain about as large.
